What's Your Sun Sign's Gift to Planet Earth, Part 1

By Lesley Francis

Aries – Guts! Pure and simple. Where would any of us be without me leading the way? Showing everyone the right way to do it. The truth is how can you do anything if you don't believe it's the right way? You just gotta take charge. That's definitely my motto. Life is straightforward if you just make it that way. Be master of your own fate. Forge ahead. It doesn't matter how you do it. Just do it. (You know Nike used that without my permission).

Taurus (slightly huffy after overhearing Aries) – Well, life is about more than just taking action. You really do have to think about consequences. It's not possible to build anything substantial unless you stick with the plan. So, I guess my gift to the planet is perseverance. I make the best of the opportunities offered to me. Yeah, I dig my heels in but somebody's got to. How would you like to spend your zodiacal life surrounded by the Boss (Aries) and the Gadfly (Gemini)? Never mind the rest of the Zodiac. Don't get me started.

Gemini – You talking to me? Sorry, I've been busy catching up on all the latest. I just hate to be out of the loop, you know. What was the question again? Oh. Well, that's simple. I am the Earth's Town Crier. It's a big responsibility but, after all, where would the wheels of communication be without my insatiable need to know? I keep them humming, let me tell you. My job is to go out and connect and pass along all the stuff I've picked up. Bottom line? I love it.

Stay tuned for Part 2 tomorrow. Part 3 on Monday & Part 4 on Tuesday
